Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 8-25 are pending and have been examined.

A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 29 June 2007 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In independent claim 8, the phrase "*business operations and their technology specific applications*" is indefinite. It is unclear as whether this refers to one item as in the "technology

specific applications of the business operations". This interpretation would seem to be more in line with claims independent 16 and 22.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Boden** et al. (USPN 5,930,512) in view of **Lau** (USPN 6,598,219) and in further view of **Smith** et al. (USPN 7,171,647).

Claims 8, 16 and 22

Neither **Boden** nor **Lau** explicitly state *"the scheduling component can implement business processes independent of business operations and their technology specific applications"* where the business operations are bound with the data flow diagram. **Smith** demonstrates that it was known at the time of invention to construct a generic business process model to be bound with specific business operations (column 3, line 63 to column 4, line 4). It would have been obvious to one of ordinary skill in the art at the time of invention to produce/bind the workflow process models of **Boden** from a generic business

Art Unit: 2193

process model as found in **Smith's** teaching. This implementation would have been obvious because one of ordinary skill in the art would be motivated to provide a non-technical solution to communicate and disseminate business intent (**Smith**: column 3, lines 9-19).

Claims 9-15, 17-21 and 23-25

The limitations of claims 9-15, 17-21 and 23-25 are rejected as previously indicated in Examiner's Answer mailed 26 June 2006.

Response to Arguments

Applicant's arguments with respect to claims 8-25 have been considered but are moot in view of the new ground(s) of rejection.
